WE ARE THE AW139

Authorised Synthetic Training Centre

About Us

PWNE is an AgustaWestland Authorised Synthetic Training Centre (ASTC) and is the first in the region to offer Full Flight Simulator (FFS) "LEVEL D" training services. AgustaWestland AW139 is a new-generation, medium-sized, twin-turbine helicopter, designed to carry up to 15 passengers at very high speeds.

Our training facilities are certified by Civil Aviation Authority of Malaysia (CAAM) and European Aviation Safety Agency (EASA) to provide Full Flight Session (FFS) "LEVEL D" training i.e. Type Rating, Recurrent and Mission training.

The training facilities at PWNE adopts international standard procedures to ensure every training provided meets the actual operational effectiveness, versatility and performance of being in a real helicopter. Pilots are able to perform Pilot Conversion, Pilot Recurrent and Special mission training, respectively. Our facilities provided training of oil rigs, search and rescue and ship deck trainings, EMS, Day/Night transit flight, NVG among others.

It is our objective to provide support through training for companies which operations comprises of providing helicopter commuting to and from offshore oil rig, construction companies, medical evacuation, surveillance and private chartered helicopters.

Located in Subang, the hub of Malaysian aerospace industry, PWNE is strategically located to ensure that our clients will benefit from both the conductive environment of our training facility and also the best that Kuala Lumpur and Malaysia as a whole can offer.

WE'RE THE AW139

Approved Training Organization (ATO)

certified by Civil Aviation Authority of Malaysia (CAAM)

PWN Excellence (PWNE) is an Approved Training Organization (ATO) certified by Civil Aviation Authority of Malaysia (CAAM) and the first Leonardo Helicopters (previously known as AgustaWestland) AW139 Authorized Synthetic Training Center (ASTC) in the Asia Pacific region.

PWNE ATO gives professional training through total commitment and excellence in all phases of instructions, from classroom to ground-based training to generous simulation training flight time. Our comprehensive training profiles provide pilots with desired skills for helicopter specific mission, focusing on safety, decision-making, crew resource management, hands-on experience and strong classroom educational foundation.

PWNE delivers reliable and highly respected training for a growing number of air operators, corporations, and government agencies by providing the AW139 'Level D' FFS.

The followings are CAAM approved training courses provided at PWNE :
